

Thank You KIOGA Members! KIOGA President Message

These are critical times for our industry, economically and politically. And as we round out 2014, I am pleased to report that the Kansas Independent Oil & Gas Association (KIOGA) continues to grow, both in the size of our membership, and in the strength and reach of our efforts in Topeka, Washington, and across Kansas. This would not be possible without your efforts.

The challenges we now face through threats of unfriendly executive action, federal tax reform policy discussions, and regulatory over-reach continues into 2015. Though that reality may seem to be "business as usual," considering the environment in which we have worked for the past several years; the industry should be incredibly proud of the success that has been achieved and the position we have maintained heading into 2015. The impact and importance of this year's elections cannot be understated, and we are fortunate, thanks to a generous membership, to have been involved in many key national and state-wide races. KIOGA will continue to build positive bipartisan relationships throughout the coming year and continue fostering broad, non-partisan conversations that promote smart energy policy decisions.

Thank you sincerely, for your continued participation and support of KIOGA's programs and our efforts in Topeka and Washington. We simply would not be able to achieve the same level of success without your generosity and leadership. You make a difference every day!

From all of us at KIOGA, please let us wish you and your family a Merry Christmas and Happy New Year!

Edward Cross
President
